

WT SM and WS

The figure is a box plot with individual data points overlaid. The y-axis is labeled from 0.5 to 2.0 in increments of 0.5. A dashed horizontal line is drawn at y = 1.0. The x-axis has three categories, each represented by a black box plot. Individual data points are shown as open circles, some labeled 'C' (correct) and some 'R' (incorrect). The first group (left) has a median around 1.15. The second group (middle) has a median around 1.15, with a wider spread and a high outlier labeled 'C'. The third group (right) has a median around 1.15, with a wider spread and several outliers both 'C' and 'R'.

Group	Type	Value (approx.)
1	C	1.15
1	C	1.18
1	C	1.42
1	R	1.08
1	R	0.62
2	C	1.02
2	C	1.15
2	C	1.32
2	C	1.72
2	R	1.05
2	R	1.08
2	R	1.42
2	R	0.82
2	R	0.72
3	C	1.08
3	C	1.12
3	C	1.25
3	C	1.42
3	R	1.02
3	R	1.05
3	R	1.08
3	R	1.22
3	R	0.95
3	R	0.88
